DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 11/8/04, with respect to the rejection on claims 5-7 and 12-15 have been fully considered and are persuasive. The rejection of said claims has been withdrawn.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter: The prior art made of record fails to explicitly disclose or reasonably suggest a method of assembling an optical module by carrying out passive alignment between a plurality of optical elements and first ends of a plurality of optical fibers exposed at a first surface of an optical fiber by image recognition and further mounting an optical fiber array while said alignment is kept. Therefore claims 5 and 12 are allowed. Claims 6-7 and 13-15 are allowed by virtue of their dependency.
